Elysée Secret

Intimate and tucked-away, this hotel is still only moments away from the grand Champs Élysées and its designer stores, such as the imposing Louis Vuitton flagship.

The hotel's 26 bright white rooms and suites are chic hideaways, enlivened with alluring shades of fuschia, emerald and vivid yellow. Touches of romance have been brought in with wall panels highlighting portraits of Marie Antoinette. Above

the bedside tables, diamond-shaped light fixtures hang suspended, casting a fairy-like glow through the rooms.

Guests may choose from three different décor schemes, from the simple, elegant Secret rooms, to the more opulent Boudoir rooms. On the sixth floor, two duplex Trianon suites provide more indulgent amenities, including king size beds, a private bath suite and a Nespresso machine.

All rooms feature complimentary wireless access, iPod docking stations, flat-screen TVs, and a mini-bar stocked with complimentary mineral water and soft drinks. Breakfast is included in the tariff.

Amenities include a business centre and small lounge on the first floor. Champagne and tasting plates can be arranged on request, either in the lounge or in your suite – the perfect way to unwind after a day absorbing the nearby Louvre, the Petit and the Grand Palais.
